

Driving from the South (South Shore)

Take the Southeast Expressway (Route 93 and Route 3) North, heading toward Boston. Once in the tunnel in Boston, take Exit 26 (Storrow Drive). The exit ramp forks, exit on the left following signs for North Station. At the yield sign, take a left. At the first light, make a left. This will loop you around to the second light and take a right to go over the Charles River Dam, passing the Museum of Science on your left. Go through 2 stop lights (Edwin H. Land Parkway). At the next light, the road will fork. Take the left fork onto Cambridge Street, passing the LECHMERE T Station on your right. Our building is on the left about 2 1/2 blocks. It is a two story brick building with three arched windows, #350 Cambridge Street.

Driving from the North (North Shore)

Follow Route 1 South and go over the Tobin Bridge (There is a toll). About a mile or so past the toll booths, Route 1 South will merge with Route 93 South. Take the first exit after the merge (#26 - Storrow Drive/North Station). Once on the ramp, exit on the left. Take the next immediate left and follow signs for Cambridge/28N/O'Brien Hwy. Make a right at lights to go over the Charles River Dam, passing the Museum of Science on your left. Go through 2 blinking lights and 1 stop light (Edwin H. Land Parkway). Once through the light, the road will fork. Take the left fork onto Cambridge Street, passing the LECHMERE T Station on your right. Our building is on the left about 2 1/2 blocks. It is a two story brick building with three arched windows, #350 Cambridge Street.

Driving from the North (New Hampshire and Maine)

Follow Route 93 South to exit #26A (Leveritt Circle/Cambridge). Follow to set of lights, turn left and follow signs for Cambridge/28N/O'Brien Hwy. Make a right at lights to go over the Charles River Dam, passing the Museum of Science on your left. Go through 2 blinking lights and 1 stop light (Edwin H. Land Parkway). Once through the light, the road will fork. Take the left fork onto Cambridge Street, passing the LECHMERE T Station on your right. Our building is on the left about 2 1/2 blocks. It is a two story brick building with three arched windows, #350 Cambridge Street.

Driving from the West

Take the Mass Turnpike East (also Route 90) to exit #18 (Allston/Cambridge). Keep to the right (River Street). Cross the Charles River. Continue through Central Square. At Central Square, River Street will merge and become Prospect Street. Follow Prospect to Cambridge Street. Then take a right onto Cambridge Street. Our building is on the right about 3/4 to 1 mile. It is a two story brick building with three arched windows, #350 Cambridge Street.

Driving from the Northwest (Route 2)

Follow Route 2 until it turns into Memorial Drive. Follow Memorial Drive along the Charles River (on your Right) to River Street and turn left. (Note: River street is the next light after Western Avenue.) Continue through Central Square. At Central Square, River Street will merge and become Prospect Street. Follow Prospect to Cambridge Street. Then take a right onto Cambridge Street. Our building is on the right about 3/4 to 1 mile. It is a two story brick building with three arched windows, #350 Cambridge Street.

From the MBTA

Take the Green Line Train to the LECHMERE stop. Once on Cambridge Street, take a right. Our building is on the left about 2 1/2 blocks up. It is a two story brick building with three arched windows, #350 Cambridge Street.

From our old North Cambridge Location

Follow Mass Avenue East toward Porter Square. At the stop light at Porter Square (In front of Christopher's restaurant), take a left onto Somerville Road. Then take your first right (Beacon Street). Follow Beacon Street to Cambridge Street. Take a left on Cambridge Street. Our office is located on the right about 3/4 mile. It is a two story brick building with three arched windows, #350 Cambridge Street.
