- Start with First and Last Name
- Provide Date of Birth if available
- Try running *with* City/State information and *without*

Where to go Next:

- Once you find the person you believe to be the correct person you were searching for, click on their *LexID* (a set of numbers) that is unique to them
 - *Note: there may be multiple LexID's for one person*
 - Take note of them all and try searching under each unique number ID assigned to that person
- Clicking on their LexID then allows you to do a number of searches for that particular person
 - This helps narrow down other people with the same name
- Make note of addresses and phone numbers found under *Advanced Person Search*
 - These can be the first phone numbers/addresses you attempt

Relatives Search:

- Once you find the person you believe to be the relative you are searching for, run a *Relatives Search* on that person
 - Those relatives are also likely related to the child
 - You can run any of the aforementioned searches on the names yielded from the *Relatives Search* as well

Contact Card Report:

- Once you find the person you believe to be the relative you are searching for, also run a *Contact Card Report* on that person
 - This may give additional names from the *Relatives Search*, and may provide specific relationship information (Aunt, Sister, etc.)

Tips:

- If there are little-to-no results, try various spellings of their name or adding/subtracting DOB
