Overview of Kinnect

Kinnect is a private non-profit that was founded in 2005. Kinnect leverages its leadership expertise to design programs, products and services that transform the child welfare system. Kinnect leads innovation to reduce the time that children spend in the child welfare system and to prevent entry into the child welfare system. Kinnect achieves this by partnering with organizations to transform beliefs, values and actions to ensure permanent families for all children in the shortest time possible. We believe that childhood is a fundamental human right and that all children deserve permanent families. We believe that every day that a child is in foster care, separated from their kin and community is a day in crisis. We embrace hope, possibility and innovation and we treat everyone with dignity and respect.

Overview of the Kinnect to Family Program

Kinnect to Family is a specialized, intense, family search and engagement program. Diligent search strategies are used to identify a vast array of connections for children and families encountering child welfare. We empower kinship caregivers and wrap them in stabilizing supports using relentless effort, focus and determination. As with all Kinnect programs, we embrace family to be defined as biological, adoptive, foster and all other kin and persons who have meaningful relationships with the family of origin; such as neighbors, coaches, and lifelong friends. We believe all children have caring and capable extended families that are willing to help raise their kin when needed. With the right tools and engagement, families can be united together to support one another through kinship care.
